2nd February 2015

Dear Martin

I wanted to write and congratulate you on the significant improvement your school has made to the Key Stage 2 results for your disadvantaged children. As you know this is one of Surrey's key priorities.

The results show that the progress and attainment achieved by these children since 2011 is a testament to your commitment and support given to ensure that they succeed, giving them the best possible start to their secondary education. It is really great that this has also been recognised by the Department of Education in the letter recently sent by David Laws MP.

I am sure you will continue to go from strength to strength in supporting your disadvantaged children throughout 2015 and hope that you will share the work that you are successfully doing through the No Child Left Behind Project.

With best wishes,

Yours sincerely

Maria Dawes
Head of School Effectiveness
